SC Department of Transportation  
Road Maintenance Division  
P.O. Box 191  
Columbia, SC 29201

Re: Winter Storm Leon

To Whom It May Concern:

This note is to give thanks for all the hard work that the men and women with the Department of Transportation provided during the winter storm. Because of your efforts, not only did you make the roads safer for commuting, you also helped to make our job safer as well. Since we are like you, a first responder during impending storms, safety is our #1 priority. Knowing that our bucket trucks and responding vehicles were able to traverse the roads throughout our state restoring power, and doing so without a single vehicle incident, gives great testimony to the job that you perform during adverse conditions.

Sometimes, what we do goes unnoticed until there is a great need, so we wanted to let you know that we appreciate all that you do, not only during a storm, but also in our daily routine. Your continued assistance and partnership in providing our community with its ever demanding needs is much appreciated.

Sincerest Thanks,

SCE&G Electric Operations  
Metro Columbia Crew Quarters
