

SPECIAL POINTS OF INTEREST:

- 25 flood impacted bridges being fast-tracked for replacement
- Over 50% of SCDOT's remaining closures are impacted by a privately owned dam
- Road and bridge repairs will begin once DHEC certifies the dam owner's repair or abandonment
- Road and bridge repair costs estimated to be \$137 million.
- SC's share of road and bridge repairs projected at \$49 million

Bridge Progress

25 Fast-Track Bridge Replacements Underway

The Department is currently tracking 25 full bridge replacements related to the October 2015 flood event. Six of these bridges will be funded by the Federal Emergency Management Agency (FEMA) and 19 will be funded through the Federal Highway Administration's (FHWA) Emergency Recovery (ER) program.

Seventeen of these replacements have been awarded to contractors, with two more scheduled to be awarded this spring.

SCDOT's bridge maintenance forces are taking the lead on 3 of the 25 replacements, with 2 already completed and open to traffic.

SCDOT's fast-track ap-

proach towards bridge repairs and replacements continues on schedule. Two bridges have already been opened and eight additional bridges are scheduled to be open to traffic by June 2016.

Statewide, SCDOT currently has over 125 active bridge projects.

Dam Failures

SCDOT's Path Forward

During the October floods, dozens of dams failed across South Carolina. Today, 25 roads are still closed due to dam breaches. SCDOT does not own or maintain dams, and roads or bridges on or adjacent to dams, are there by easement.

In South Carolina, the Department of Health and Environmental Control (DHEC) regulates dams and is actively working with dam owners to make

necessary repairs. Once DHEC certifies the repaired dam, SCDOT will make the needed repairs to return the road to service.

In some cases, the dam owner may elect to permanently abandon the dam and restore the natural stream flow. SCDOT will install the necessary structures (pipe, culvert or bridge) to move the water under the roadway. As with dam repairs, DHEC

will work with the dam owner to certify the permanent breach.

Of the 25 dams impacting roads, 7 are currently unregulated by DHEC. For these 7 dams, SCDOT is working with dam owners to follow the DHEC process for repair or abandonment.

Roadway Closures *(as of February 12, 2016)*

49 road closures remain in South Carolina. This is down 91% from the peak closure of 541 roads.

“While SCDOT does not own or maintain dams, we are actively working with DHEC to re-open roads as soon as DHEC certifies the dam owner’s repairs.”
-Christy A. Hall, PE
Secretary of Transportation

Road Name	From	To	Description	Status	Projected Opening
Aiken County					
Old Shoals Road	US 1	Mt. Pleasant Road	Bridge Replacement	Under Construction	3/29/2016
